

Here is the testimonial for your website!

" I received my first shepherd (and my first dog in general) from Shepherds On The Hill in November 2014. From the very get go they were extremely sincere and professional. They responded to my first email within 24 hours when I saw one of their puppies online. That same day we talked on the phone and they gave me directions to their home where I could look at the puppies. What they did next really impressed me. I wasn't completely sure which exact puppy I wanted when we spoke on the phone, so I told them I wanted one of the bigger pups. They took all the biggest pups in the litter and gave them a fresh bath and nail clipping. That meant a lot to me and showed they truly care for their litters. All of the puppies were clean, well socialized, and very healthy. They welcomed me into their home and supplied me with the food I would need along with registration papers, shot records, and other various items. In July 2015 my pup became sick and the vets were having a hard time figuring out what was wrong with her (we were assured from the get-go that it wasn't genetic). I contacted Shepherds On The Hill in search of answers since they were knowledgeable about GSD's. Although they weren't sure exactly, they spent a lot of time helping me search for answers and inquiring from other breeders. My pup and I are both well and she has been living with me for almost a year. We still keep in contact with Shepherds On The Hill on a regular basis, and I have already told them multiple times that when the time comes, I will be getting another shepherd from them. You seriously cannot go wrong with Shepherds On The Hill. They are genuine, professional, friendly, and raise healthy and well socialized puppies. Thanks again for providing me with my best friend!!

Here is my pup and I after I brought her home (picture 1)

Here is a more recent pic of us (pic 2)

She is a beautiful, loyal and intelligent dog! (Pic 3)
