

My wife and I live in Northern Nevada and have been raising German Shepherd's for almost 20 years. It was time to add another member to the family so we sent out in search for our new pup. Since we could not find any that met our needs locally we extended our search finding the Lammert's in Mo. We picked a fine young white female named Snowball and she arrived by plane at the beginning of March 2014. She is now almost 2 years old and has EVERY trait a champion German Shepherd should have intelligence, athletic ability, and the best personality ever. Thank you very much for our newest family member and will only get our future pup's from you. John & Brenda Lyon
